Comprehensive Protection Suite

Six powerful modules working together to keep the platform safe, compliant, and scalable.

Modules + Importance

1. Content Moderation

Ensures all user-generated content stays safe, appropriate, and platform-compliant.

2. Policy Enforcement

Automatically applies and maintains rules to keep the community aligned with guidelines.

3. Research & Analytics

Provides insights into trends, risks, and user behavior for smarter decision-making.

4. Threat Response

Detects and responds to threats in real time to prevent crises and platform abuse.

5. Ad & Brand Safety

Protects brand reputation by ensuring ads and content meet safety standards.

6. AI Marketing Intelligence

Drives growth with data-driven insights, automation, and campaign optimization.

UI Structure (Clean + Premium)

Each module card layout:

[Icon]

Module Name
