

GUARDIAN AI — BRAND BIBLE (VERSION 3.0)

The definitive system for identity, design, and communication

01 — BRAND FOUNDATION

Brand Essence

“Guardian AI is intelligence that protects, decides, and acts.”

Core Statement

Guardian AI exists to deliver intelligence organizations can trust — enabling them to protect systems, make decisions, and act in real time without compromise.

Positioning

Guardian AI is an enterprise AI platform built for organizations where accuracy, speed, and reliability are critical.

- We are not a tool.
 - We are a system of intelligence.
-

Target Audience

- Enterprise companies
 - SaaS platforms
 - Fintech & high-risk systems
 - Governments & security infrastructures
-

Mission

To provide organizations with real-time intelligence that enables confident, accurate, and immediate action.

Vision

A world where every organization operates with an intelligent system continuously protecting and guiding decisions.

Core Values

Value	Meaning
Authority	We lead with confidence and clarity
Precision	Every output is accurate and intentional
Trust	Built for critical environments
Intelligence	Insight that leads to action

02 — BRAND PERSONALITY

Guardian AI Behaves Like

Calm
Authoritative
Structured
Intelligent
Reliable

We Are

Precise
Confident
Direct
Trustworthy

We Are Not

Loud
Trendy
Over-marketed
Flashy

Rule:

“If it feels like a startup, refine it. If it feels like infrastructure, it’s correct.”

03 — COLOUR SYSTEM

Core Principle

One color family dominates. Accents are controlled.

Primary (AI Core System)

Name	HEX	Usage
Deep Navy	#0B0F19	Main backgrounds
Surface Navy	#0F172A	Cards
Border	#1E293B	Dividers
Primary Blue	#2563EB	CTAs
Hover Blue	#1D4ED8	Interaction
AI Accent (Cyan)	#4ABAFF	Active states

Light Mode (Marketing Website)

Name	HEX	Usage
White	#FFFFFF	Base
Light Gray	#F9FAFB	Sections
Border Gray	#E5E7EB	Separation

Color Distribution Rule

- 70% → Base (White / Navy)
- 20% → Structure (Gray / Borders)
- 8% → Primary Blue
- 2% → AI Accent

Accent Rule (Critical)

Use AI Cyan (#4ABAFF) **only** for:

- Active AI states
- Insights
- Real-time indicators

Never use as background.
Never overuse.

04 — TYPOGRAPHY SYSTEM

Font Pairing

Display (Authority): Georgia, Cormorant Garamond
UI / Body: Inter, Barlow, Calibri

Type Scale

Level	Size	Use
Hero	56–72px	Landing
H1	36px	Sections
H2	24px	Sub-sections
Body	14–16px	Content
Caption	12px	Labels

Rules

- Serif → authority only
 - Sans → UI & readability
 - Maintain hierarchy always
-

05 — LOGO SYSTEM

Components

Shield → protection
Core → intelligence
Wordmark → authority

Variants

1. Full Logo (Primary)
 2. Icon Only
 3. Horizontal Navbar Version
-

Usage

- Light background → dark logo
 - Dark background → white logo
-

Clear Space

Minimum spacing = height of “G” in GUARDIAN

Never

- Stretch
 - Change colors
 - Add glow
 - Separate icon/text
-

06 — UI SYSTEM

Buttons

Type	Background	Text / Border
Primary	#0F172A	#FFFFFF
Secondary	Transparent	#E5E7EB border, #111827 text
Accent	#2563EB	#FFFFFF

Cards

- White or Navy
 - Soft shadow
 - Rounded corners (8–12px)
-

Spacing

- 8pt grid
 - 24px padding
 - 48px sections
-

07 — DESIGN LANGUAGE

Guardian AI design is:

Minimal
Structured
High-contrast
Clean

Avoid:

Too many colors
Heavy gradients
Over-animation

08 — BRAND VOICE

Tone

Calm
Direct
Confident
Measured

Writing Rule

“If it sounds like marketing, remove it.”

Example:

“Revolutionary AI platform”
“Real-time intelligence for critical systems”

09 — IMAGERY STYLE

Use

- Control rooms
- Data dashboards
- Real systems
- Dark environments

Avoid

- Robots
- Abstract AI art
- Stock smiling teams

10 — MOTION SYSTEM

Element	Duration
Hover	0.2–0.3s
Entry	0.4–0.6s

Animation Style:

Fade + slight upward
Smooth easing
No bounce

11 — LAYOUT SYSTEM

- 12-column grid
 - Max width: 1200–1280px
 - Consistent spacing
-

12 — PRODUCT UI RULES

- Dark mode → Product
- Light mode → Website

Strategic Principle:

This distinction defines Guardian AI's visual intelligence boundary.

13 — NEVER DO (STRICT)

- Use random colors
 - Overuse cyan
 - Add glow everywhere
 - Break typography hierarchy
 - Use hype language
-

14 — MASTER BRAND FORMULA

Minimal + Authority + Precision + Controlled Color

Guardian AI represents enterprise intelligence — built for accuracy, speed, and reliability. Every visual, word, and interaction must reflect calm authority and operational precision.
